Adaptation to Climate Change in the Pacific Islands Region

Ol ray blong sun oli kasem wol mo mekem i kam hot. Samfala hit i save ronwei long wol bakagen i ko bak long space. Be taem ol green house gas oli fulap, bae plante heat i no save ronwei mo hemi trap nomo long wol i stap. Hit hemi gud from we i mekem ol samting i laef! Be tumas hit hemi no gud!

**GREEN HOUSE EFFECT**

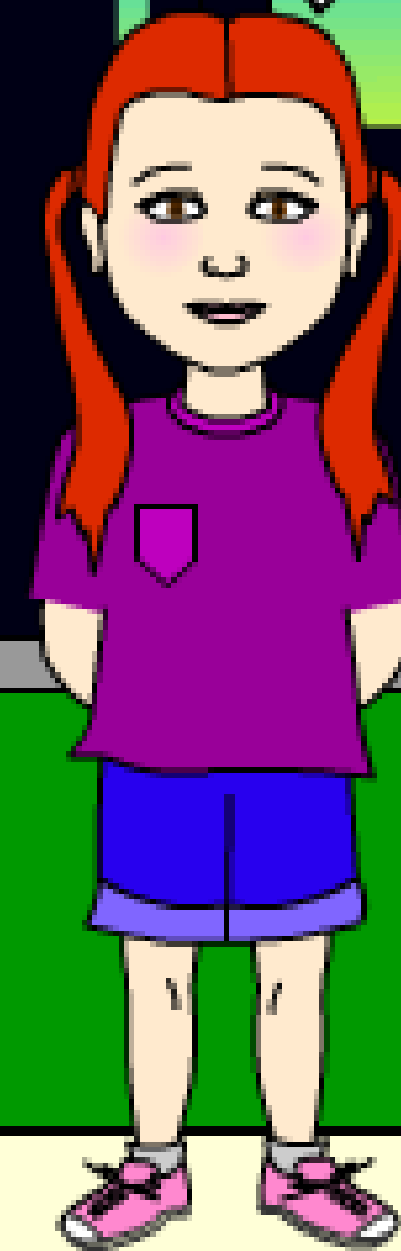

Samfala green house gas i save gud?

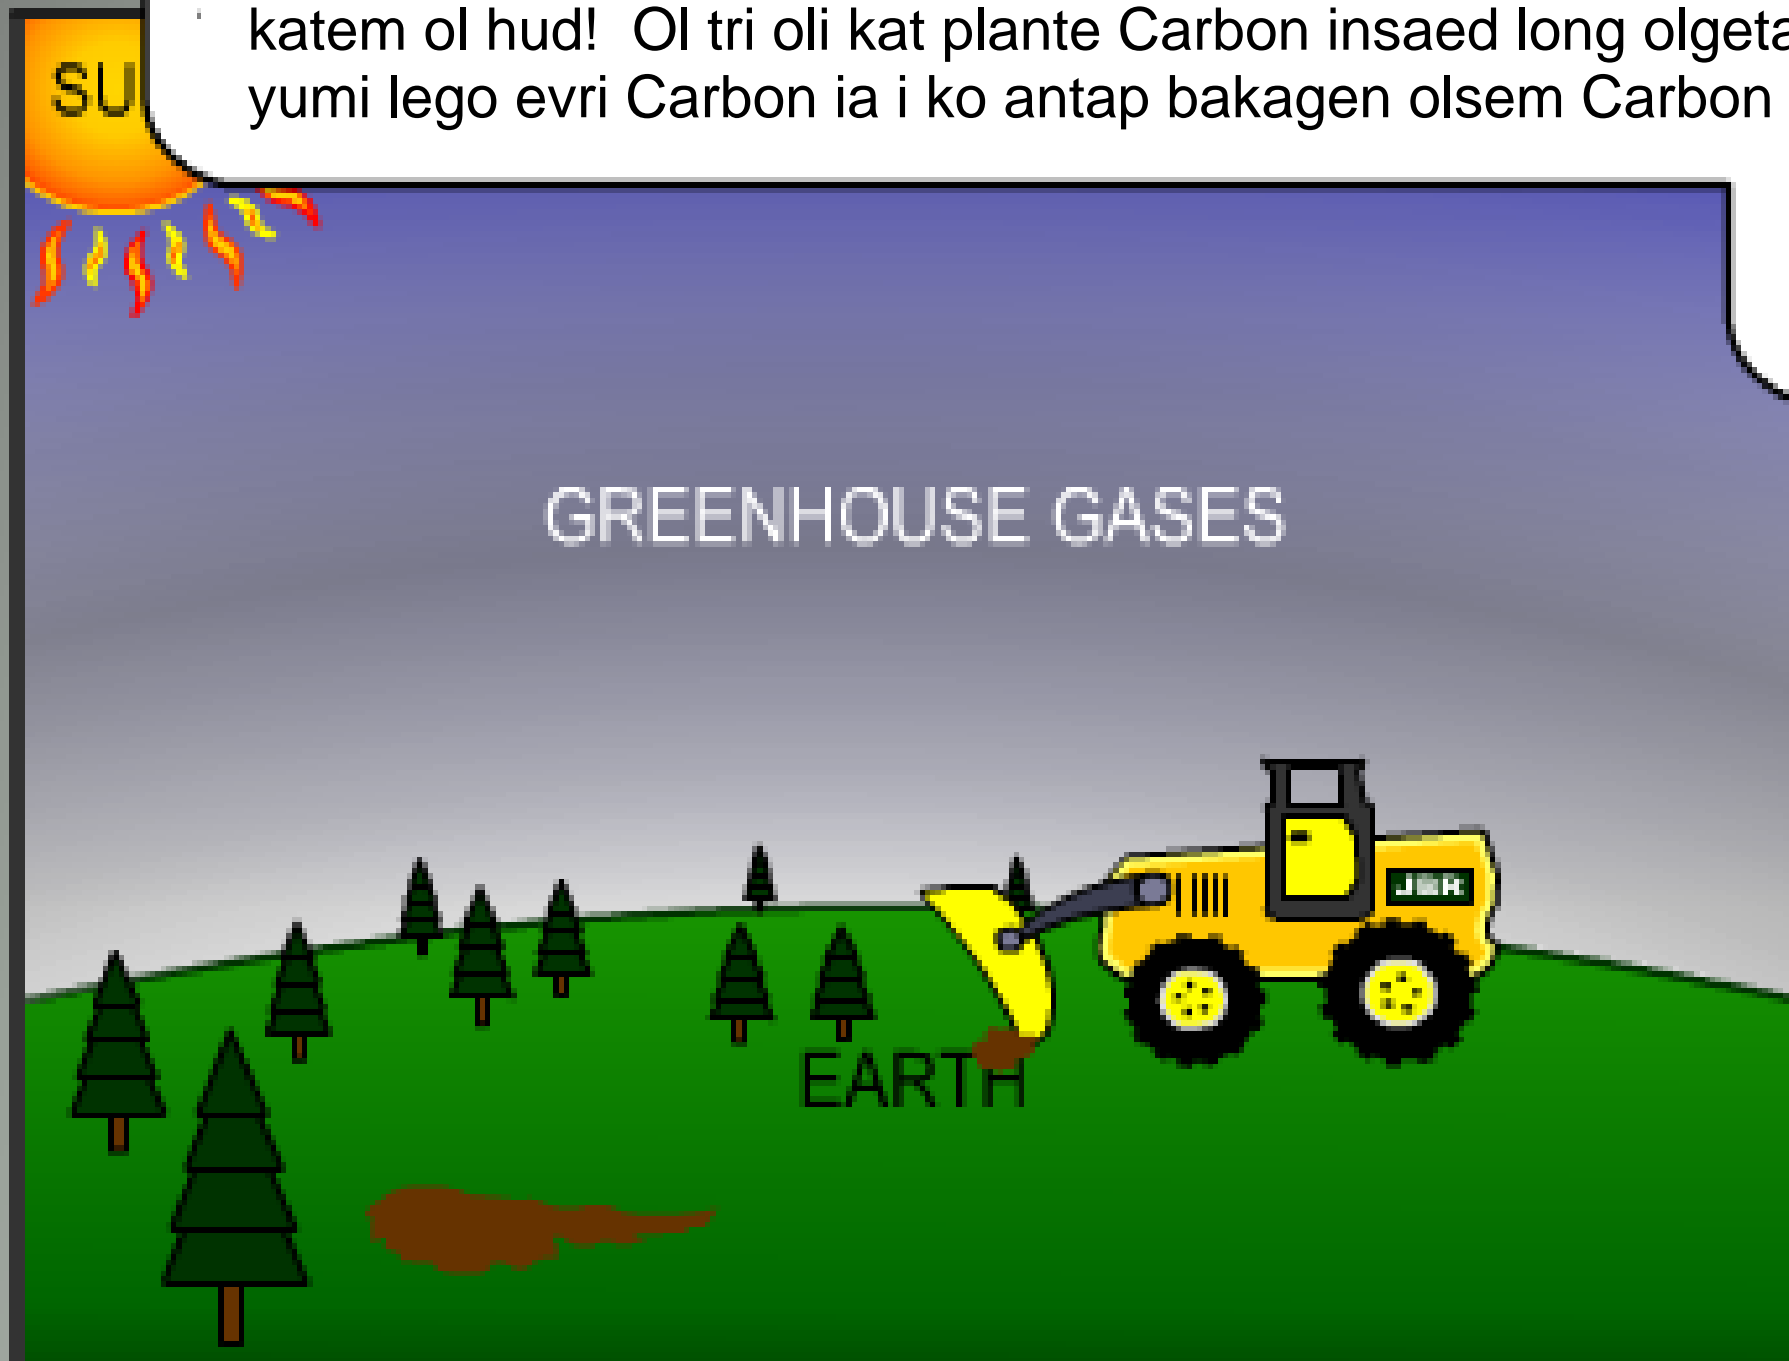

**GREEN HOUSE EFFECT**

Yes brata, yu tuff!  
Stret level blong  
green house gas i  
kipim wol i hot enuf  
blong ol laef  
samting.

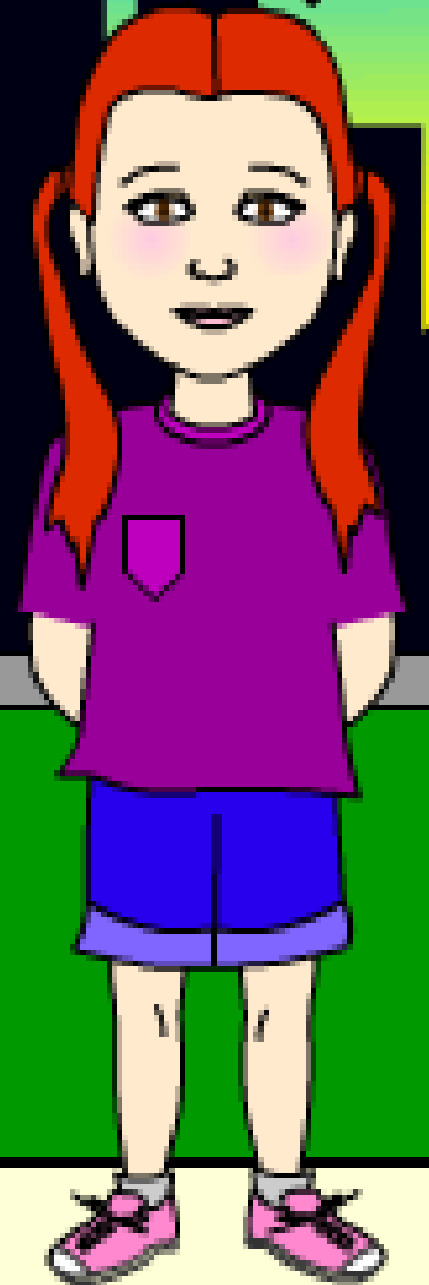

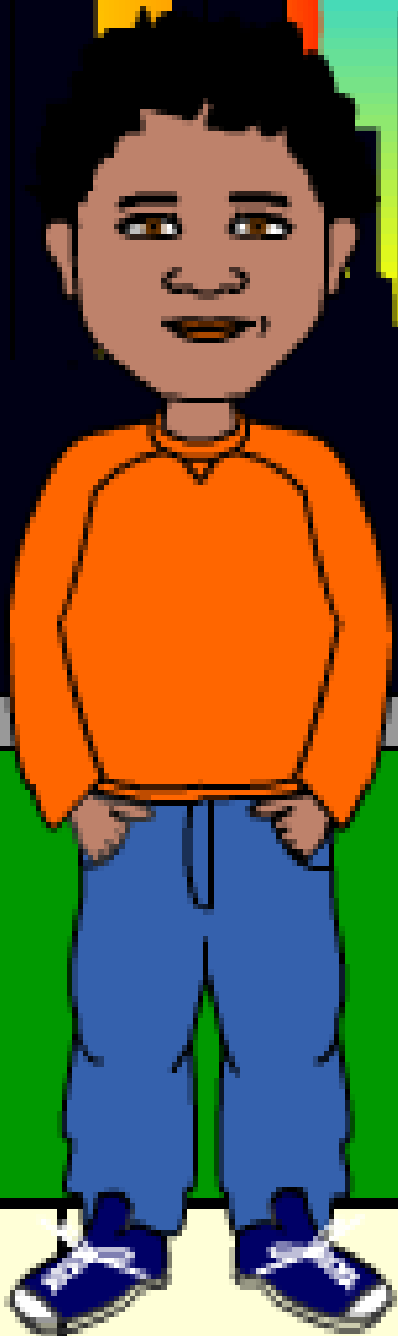

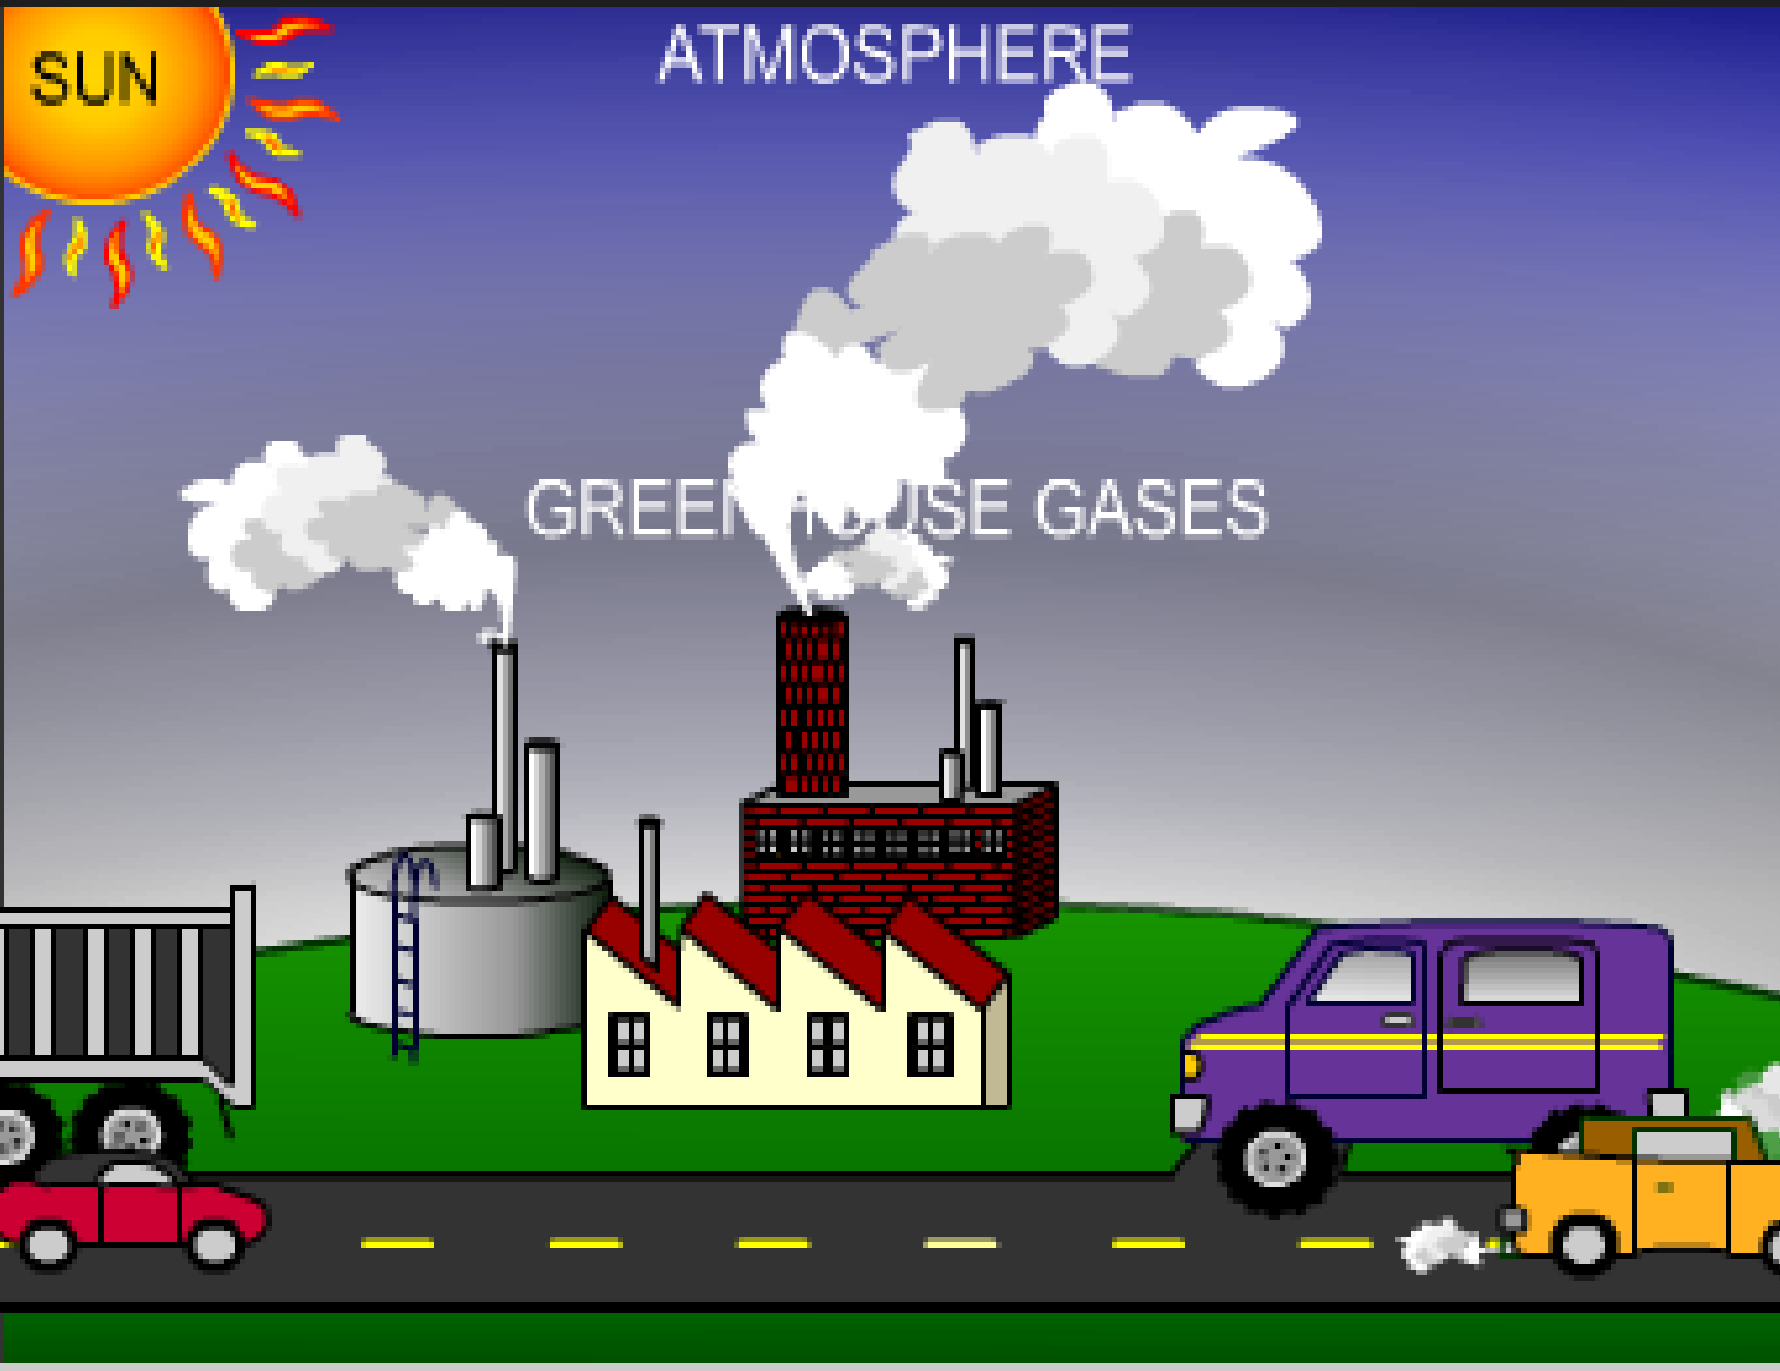

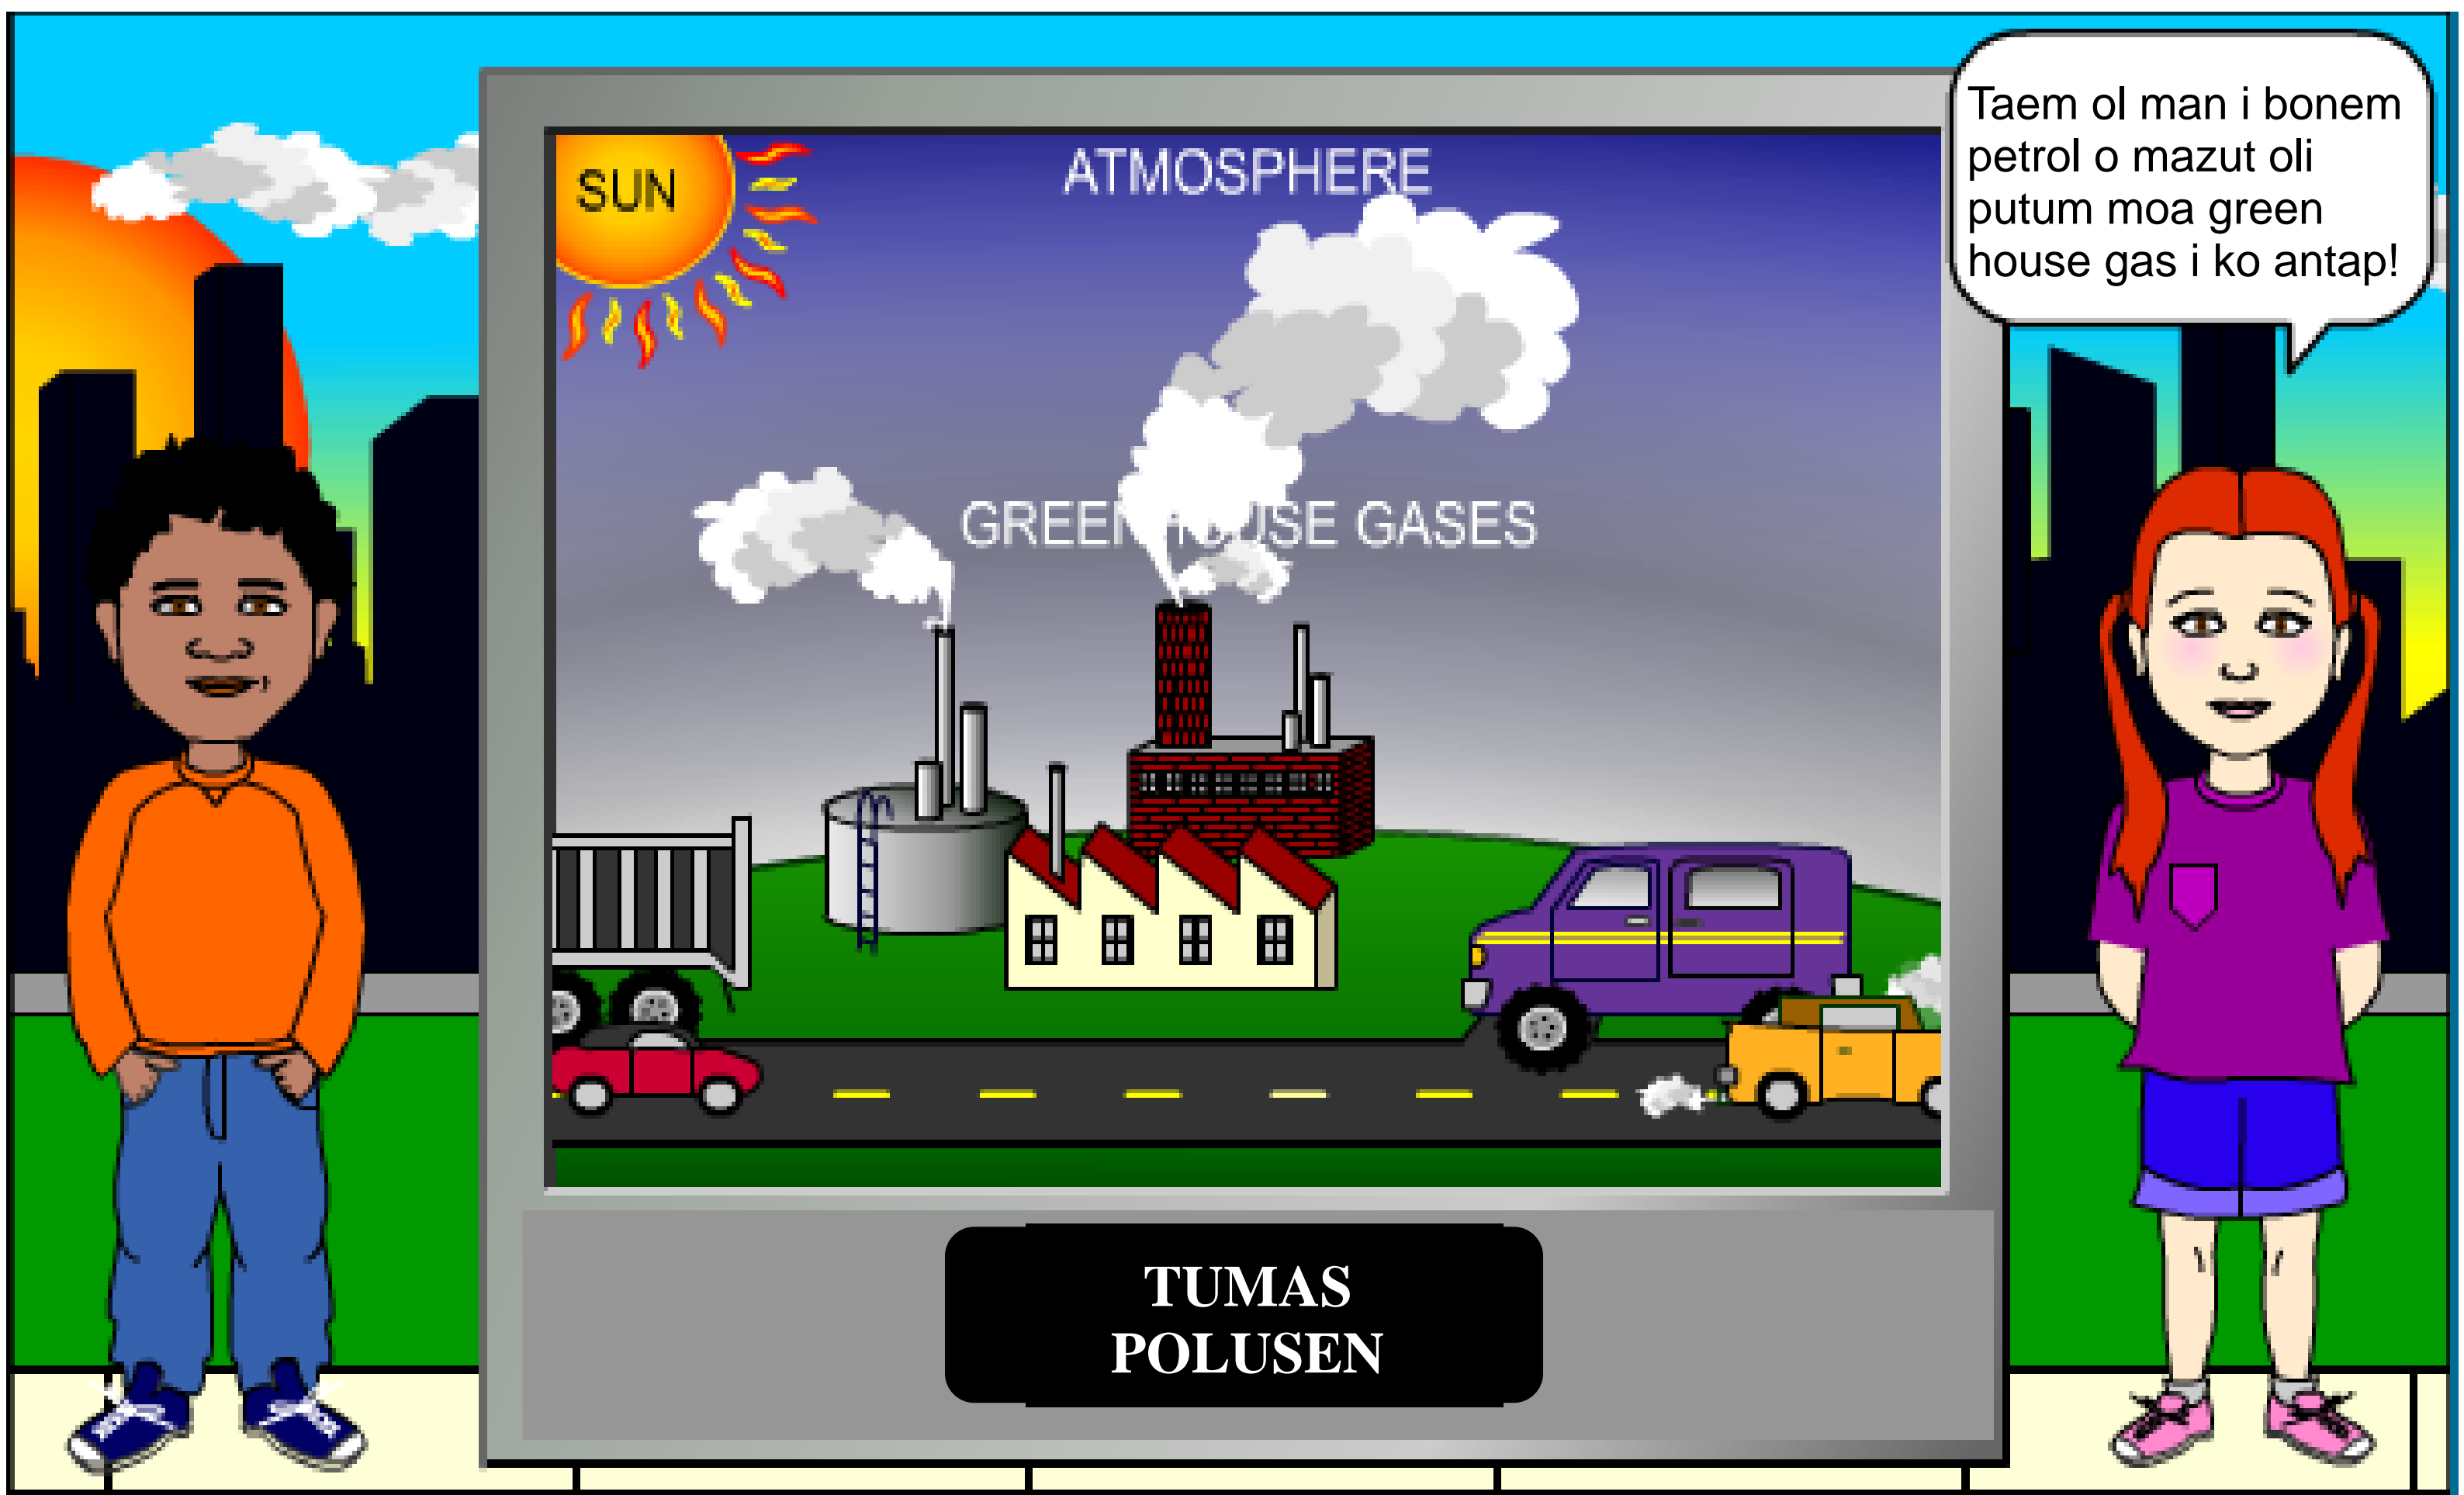

Wan wei yumi ol man i stap putum grin haos gas long atmosfia hemi taem yumi katem ol hud! Ol tri oli kat plante Carbon insaed long olgeta. Taem yumi katem, yumi lego evri Carbon ia i ko antap bakagen olsem Carbon Dioxide gas CO2.

CO2 nao hemi impoten green haos gas long wol!!

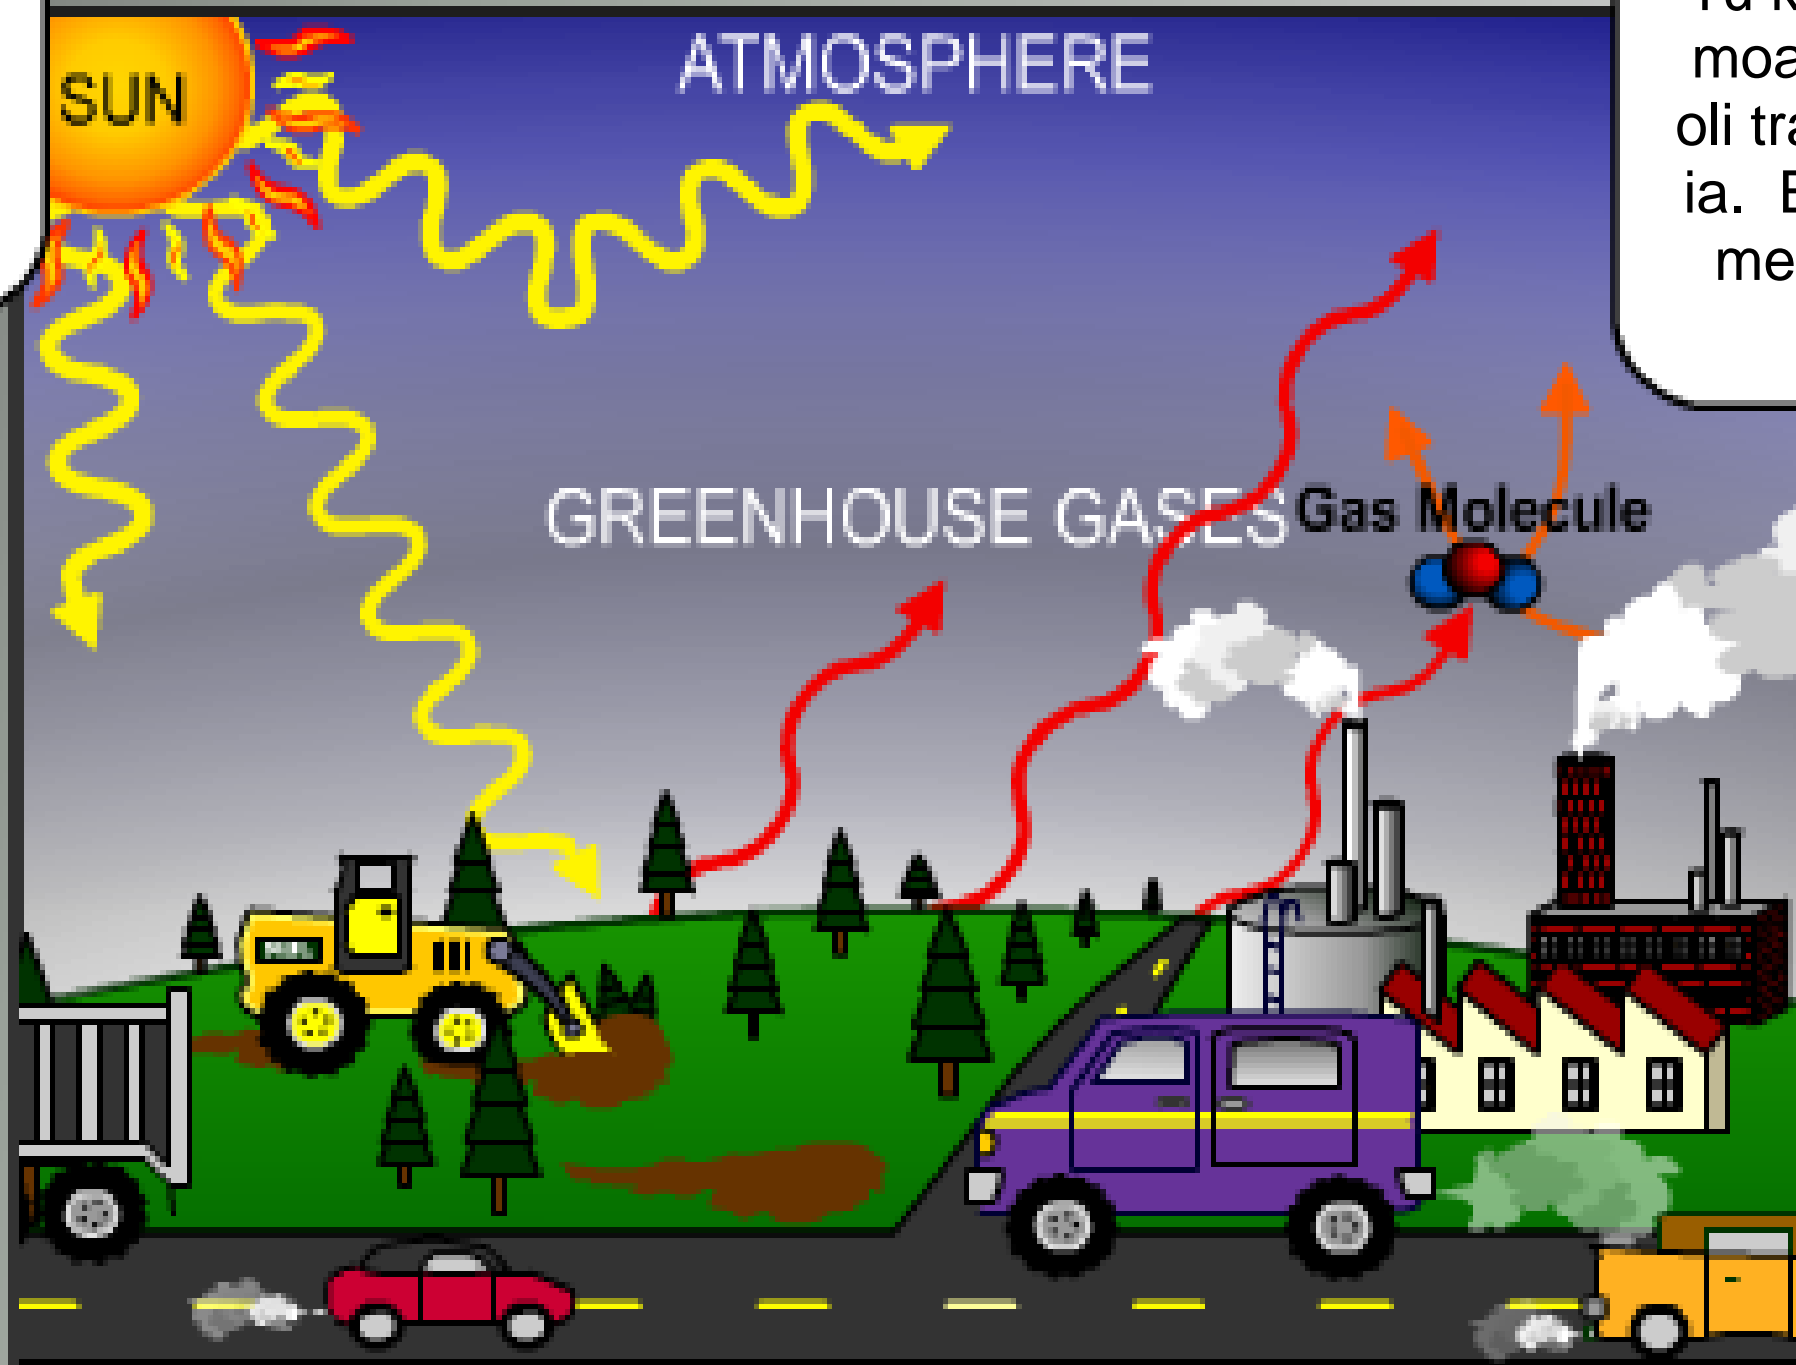

**KATEM OL HUD  
I NO GUD**

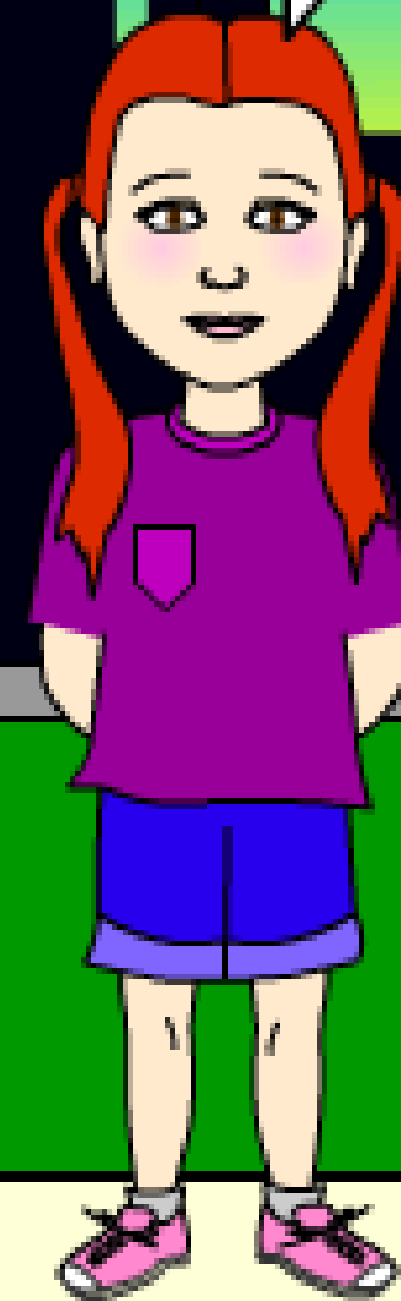

Taem ol man i bonem petrol o mazut oli putum moa green house gas i ko antap!

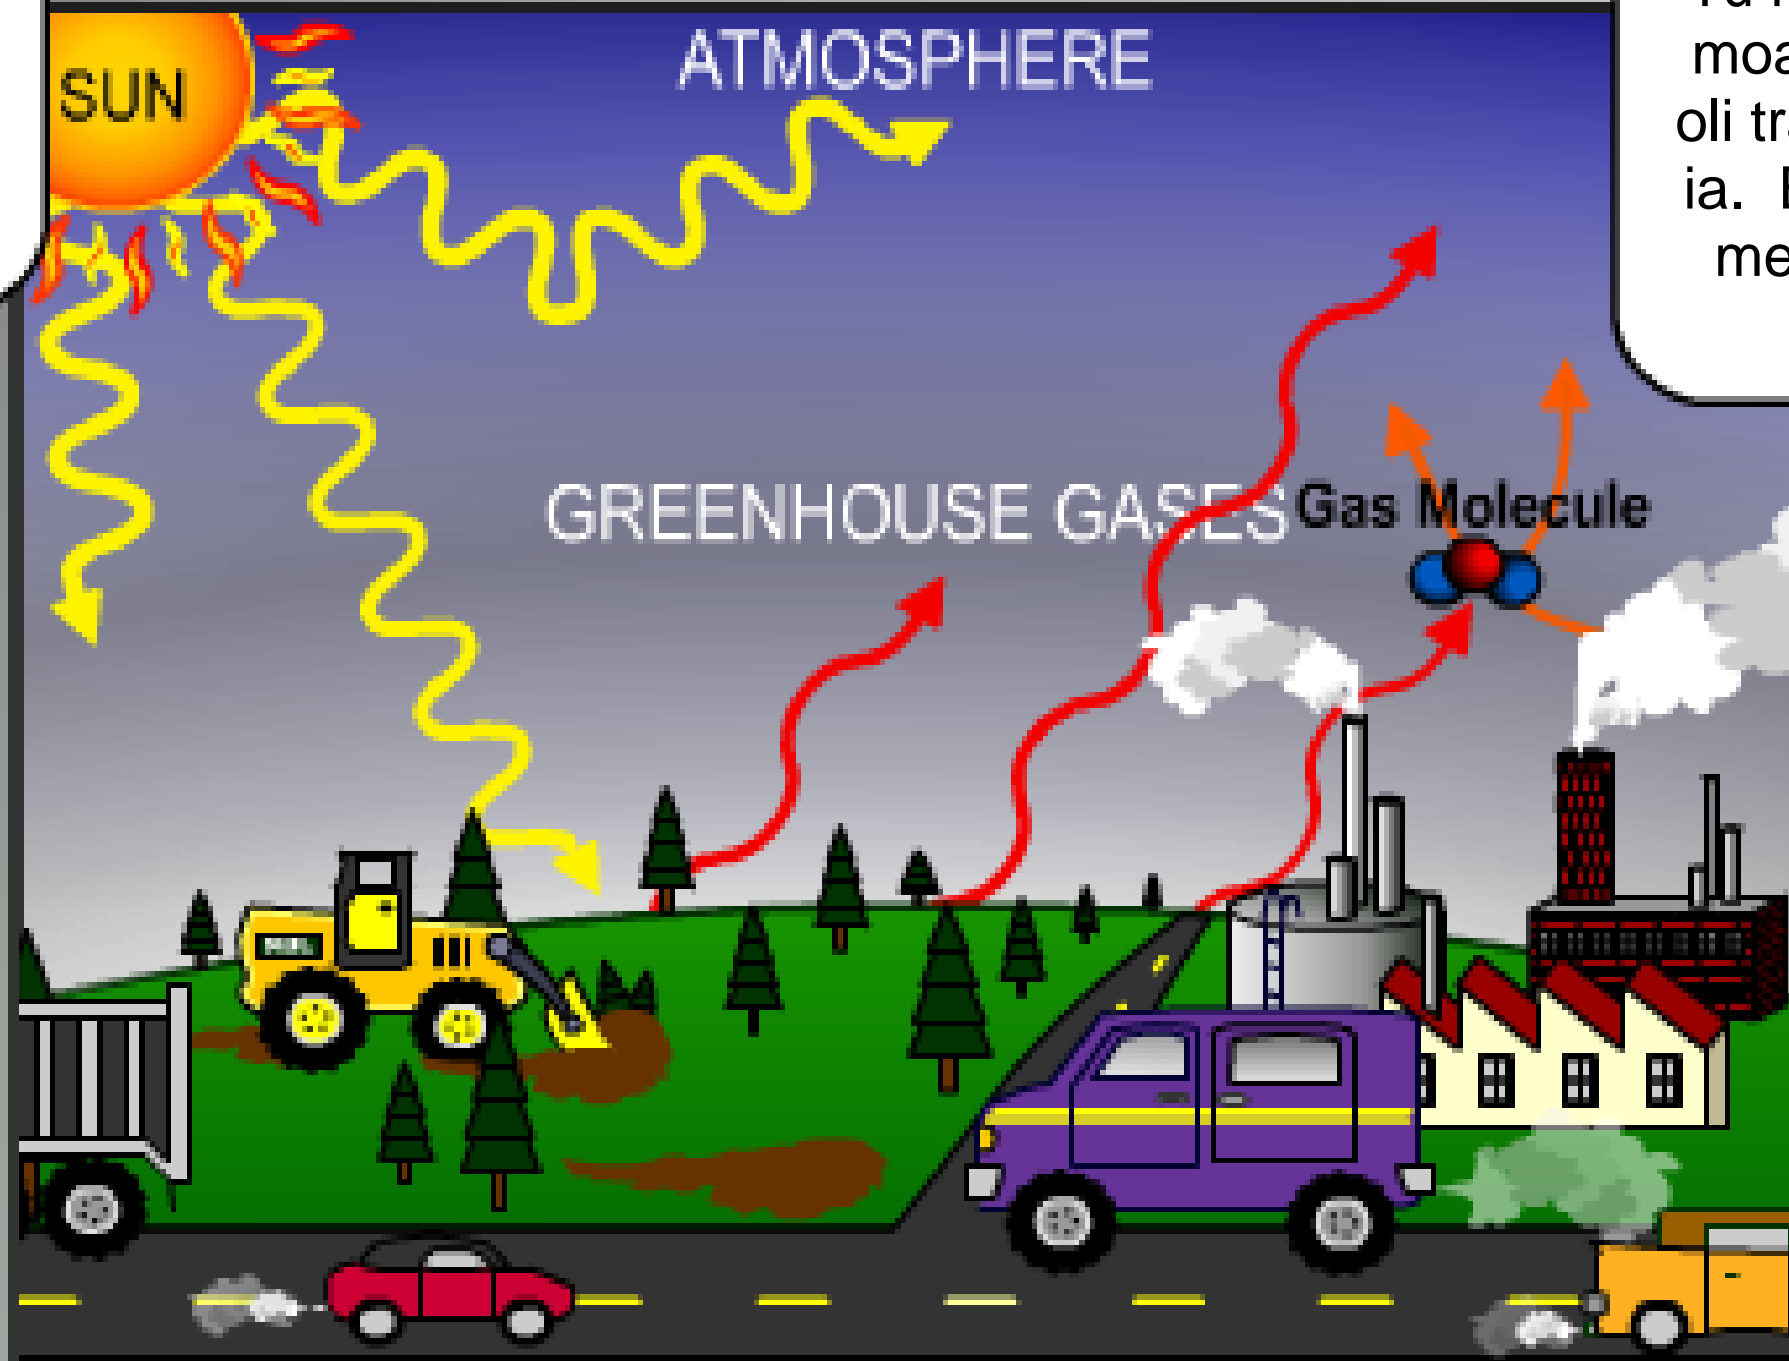

CO2 hemi wan grin  
haos gas, minim se i  
kat moa green haos  
gas i ko long  
atmosfia??

Yu kasem tawi! Taem i kat  
moa green haos gas, bae  
oli trapem moa hit long wol  
ia. Extra green haos gas i  
mekem global warming!

CO2 hemi wan grin haos gas, minim se i kat moa green haos gas i ko long atmosfia??

Yu kasem tawi! Taem i kat moa green haos gas, bae oli trapem moa hit long wol ia. Extra green haos gas i mekem global warming!
